

Trustmark Insurance Company® (Trustmark Individual Medical®) Formulary

2024 List of Covered Drugs

Effective 04/01/2024 (last updated 04/01/2024)

**PLEASE READ: THIS DOCUMENT HAS INFORMATION ABOUT THE DRUGS
WE COVER IN THIS PLAN.**

Members are encouraged to use network pharmacies to fill their prescription drugs. Your benefits, drug list, pharmacy network, premium and/or copayments/coinsurance may sometimes change. This Formulary is updated periodically and subject to change. All previous versions of the Formulary are no longer in effect.

You may contact us with questions at the following:

English and Non-English Toll-Free Telephone Number: 1-800-458-6126 during normal business hours.

Definitions

“Brand name drug” means a drug that is marketed under a proprietary, trademark-protected name. A brand name drug is listed in this formulary in all CAPITAL letters.

“Coinsurance” means a percentage of the cost of a covered health care benefit that you pay after you have paid the deductible, if a deductible applies to the health care benefit.

“Copayment” means a fixed dollar amount that you pay for a covered health care benefit after you have paid the deductible, if a deductible applies to the health care benefit.

“Deductible” means the amount you pay for covered health care benefits that are subject to the deductible before your health insurer begins to pay. If your health insurance policy has a deductible, it may have either one deductible or separate deductibles for medical benefits and prescription drug benefits. After you pay your deductible, you usually pay only a copayment or coinsurance for covered health care benefits. Your insurance company pays the rest.

“Drug Tier” means a group of prescription drugs that correspond to a specified cost sharing tier in your health insurance policy. The drug tier in which a prescription drug is placed determines your portion of the cost for the drug.

“Exception request” means a request for coverage of a non-formulary drug. If you, your designee, or your prescribing health care provider submits a request for coverage of a non-formulary drug, your insurer must cover the non-formulary drug when it is medically necessary for you to take the drug.

“Exigent circumstances” means when you are suffering from a medical condition that may seriously jeopardize your life, health, or ability to regain maximum function, or when you are undergoing a current course of treatment using a non-formulary drug.

“Formulary” or “prescription drug list” means the list of drugs that is covered by your health insurance policy under the prescription drug benefit of the policy.

“Generic drug” means a drug that is the same as its brand name drug equivalent in dosage, strength, effect, how it is taken, quality, safety, and intended use. A generic drug is listed in this formulary in italicized lowercase letters.

“Medically Necessary” means health care benefits needed to diagnose, treat, or prevent a medical condition or its symptoms and that meet accepted standards of medicine. Health insurance usually does not cover health care benefits that are not medically necessary.

“Non-formulary drug” means a prescription drug that is not listed on this formulary.

“Out-of-pocket costs” means your expenses for health care benefits that aren’t reimbursed by your health insurance. Out-of-pocket costs include deductibles,

copayments, and coinsurance for covered health care benefits, plus all costs for health care benefits that are not covered.

“Prescribing provider” means a health care provider who can write a prescription for a drug to diagnose, treat, or prevent a medical condition.

“Prescription” means an oral, written, or electronic order from a prescribing provider authorizing a prescription drug to be provided to a specific individual.

“Prescription drug” means a drug that by law requires a prescription.

“Prior Authorization” means a decision by your health insurer that a health care benefit is medically necessary for you. If a prescription drug is subject to prior authorization in this formulary, your prescribing provider must request approval from your health insurer to cover the drug before you fill your prescription. Your health insurer must grant a prior authorization request when it is medically necessary for you to take the drug.

What is the Trustmark Individual Medical Formulary?

A formulary is a list of covered drugs. Trustmark Insurance Company works with a team of health care providers to choose drugs that provide quality treatment. The Trustmark Individual Medical Formulary covers drugs on our drug list, as long as:

- The drug is medically necessary
- The prescription is filled at a network pharmacy
- Other plan rules are followed

For more information on how to fill your prescriptions, please review your plan document or other plan materials or refer to “Filling a Prescription through a Network Pharmacy”.

How do I use the Formulary?

There are two ways to find your drug on the drug list:

Medical Condition

The drugs on the drug list are grouped by therapeutic category and class*. For example, drugs used to treat a heart condition are listed under CARDIOVASCULAR.

If you know what your drug is used for, look for the category name in the Table of Contents. Then, look under the category name for your drug.

A drug is listed alphabetically by its brand and generic names in the therapeutic category and class to which it belongs.

*Therapeutic category and class based on Wolters Kluwer Clinical Drug Information, Medi-Span® Electronic Drug FileTM v2.

Alphabetical Listing

If you are not sure what category to look under, look for your drug in the Index at the end of the formulary. The Index is an alphabetical list of all the drugs in this document. Both brand-name drugs and generic drugs are in the Index.

Look in the Index and find your drug

Next to your drug, see the page number where you can find coverage information

Turn to the page listed in the Index and find the name of your drug in the first column of the list

If a generic equivalent for a brand name drug is not available on the market or is not covered, the drug will not be listed separately by its generic name.

If a generic equivalent for a brand name drug is both available and covered, the generic drug will be listed separately from the brand name drug in all lowercase italicized letters.

- Example: carvedilol

Inclusion of a prescription drug on the formulary does not guarantee that your provider will prescribe the drug for a particular medical condition.

The drug list gives information about the drugs covered by Trustmark Insurance Company. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generic drugs usually cost less than brand-name drugs, but provide the same quality of treatment. Upon release of a generic drug to the market, the generic drug will generally be added to the formulary and the associated brand drug will be removed. However, some generic drugs do not cost less than brand-name drugs and may not be added to your formulary.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., LIPITOR). Generic drugs are listed in lowercase italics (e.g., atorvastatin).

The second column lists the drug tier. The tiered format places drugs into tiers or levels of cost sharing by the plan member in the following manner:

Tier	Definition
Tier 1:	Lowest plan member copayment: All generic drugs, including those on this Formulary.
Tier 2:	Intermediate plan member copayment: Preferred brand-name products on this Formulary selected for Tier 2.
Tier 3:	Highest plan member copayment: Brand-name products on this Formulary not selected for Tier 2, and all non-preferred brand-name products. In most cases, there will be reasonable alternatives in Tier 1 or Tier 2 for products found in this highest tier.

The information in the Requirements/Limits column tells you if the Formulary has any special requirements for coverage of your drug. These requirements and limits may include:

Prior Authorization: Trustmark Insurance Company needs you (or your doctor) to get prior approval or authorization for certain drugs. This means that you need to get approval from Trustmark Insurance Company before you fill your prescriptions. If you don't get approval, Trustmark Insurance Company may not cover the drug.

Quantity Limits: For certain drugs, Trustmark Insurance Company limits the amount of the drug that it will cover. Trustmark Insurance Company also limits the amount of drugs you may receive within a class of drugs.

Filling a Prescription through a Network Pharmacy

Local Pharmacy

The most common place for filling a Prescription is at a local pharmacy. You may go to the pharmacy and give the Prescription to the pharmacist to fill or, if the pharmacy received the Prescription from your Prescribing provider, pick up a completed order.

You may be required to provide basic information such as your name and address for verification when picking up a completed Prescription. You will also be responsible for paying any Copay, if applicable, at the time the Prescription is picked up from the pharmacy. The Copay amount, if applicable, is described in the Summary of Benefits section of your booklet-certificate.

Mail Order Pharmacy

Prescriptions may also be filled by mail. They may be filled by ordering online or by using a paper order form. To order online, go to the CVS Caremark website caremark.com and follow the instructions on the screen. To use a paper order form, follow the instructions below.

Your initial order consists of three parts: the written Prescription from your Prescribing provider; a Patient/Profile Order form with preaddressed envelope; and a Copay. These are described below. Allow 14 days for the order to be completed and shipped to you. All orders are mailed either by Federal Express or First Class U.S. Mail. If you wish to have your order shipped Federal Express, you will need to pay the cost.

The Written Prescription

When obtaining a Prescription, be sure to ask the Prescribing provider to specify the following information:

- Patient name;
- Prescription for a 90-day supply of medication (your Prescribing provider should indicate the total number of pills required for that period of time. For

example, 270 tablets would be needed for medication that must be taken three times a day.);

- Refills (many maintenance drugs can be prescribed for up to one year; therefore, a Prescription for a 90-day supply may specify up to three refills.);
- Prescribing provider's signature.

Also, it is very important to include your name, address, and member number on the Prescription form, so that eligibility for the program can be verified when the pharmacy receives the order.

Patient Profile/Order Form

Included in the installation package you receive, as well as with each order shipped, is the Patient Profile/Order Form. This form is to be completed and sent in the preaddressed envelope with each order. The Patient Profile/Order Form provides information concerning eligibility in addition to health and allergy conditions pertaining to each insured person.

Copay

A check or money order for the correct Copay must accompany each order. The Copay amount, if applicable, is described in the Summary of Benefits section of the booklet-certificate. You may also be able to charge the Copay to a credit card as explained on the Patient Profile/Order Form. Please do not send cash.

Refills or Follow-up Orders

Each filled order you receive includes Refill Ordering Instructions, a Patient/Profile Order Form, and a preaddressed envelope. Orders for refills should be placed approximately 30 days before the current supply of medication is expected to run out.

Special Situations

If a maintenance medication is prescribed for immediate use, you should obtain two Prescriptions--one for a 14-day supply to be filled immediately at a local member pharmacy, and a second for an extended 90-day supply with refills, to be filled by the mail service pharmacy.

Questions

Please call the pharmacy's customer service number with any questions concerning medication or a particular order. The toll-free number is shown on your order form.

Also included with each order filled is a Patient Counseling information sheet which has specific information about the medication included with the order.

Prescription Drugs Utilization Review Program

For Maintenance Drugs and Medicines

A Prescription will not be refilled if there is a previously dispensed quantity for the same Prescription (for the same insured person) and the dispensing date for the current Prescription is earlier than the date on which approximately 66.6% of the previously dispensed quantity would be expected to last if the previously dispensed quantity was consumed based on the dosage instructions provided by your Prescribing provider.

For all other Drugs and Medicines

A Prescription will not be refilled if there is a previously dispensed quantity for the same Prescription or refill (for the same insured person) and the previously dispensed quantity of the drug or medicine was for:

- Less than a 15-day supply and the dispensing date for the current Prescription is more than four days before a previously dispensed supply would be exhausted; or
- More than a 14-day supply and the dispensing date for the current Prescription is more than ten days before the previously dispensed supply would be exhausted; or
- More than a 14-day supply and the dispensing date for the current Prescription is earlier than the date on which approximately 66.6% of the previously dispensed quantity would be expected to last if the previously dispensed quantity was consumed based on the dosage instructions provided by your Prescribing provider.

Exhaustion of the previously dispensed supply is determined based on when the last dose of the medicine or drug would have been consumed if the previously dispensed supply was consumed by the Prescription date. Prescriptions may be refilled prior to exhaustion of a previously dispensed quantity for the same Prescription or refill for up to a 30-day quantity once per calendar year or plan year.

For certain drugs or classes of drugs designated by Trustmark Insurance Company, we reserve the right to:

- Require Prior Authorization for dispensing; and
- Limit the quantity of drugs for which benefits will be paid; and
- Require the dispensing of certain drugs before paying benefits for another drug within a given class; and
- Require the dispensing of a single daily dose of certain drugs.

For all drugs requiring Prior Authorization, the pharmacy benefit manager must notify your Prescribing provider within 72 hours of receipt of a non-urgent request

or 24 hours if exigent circumstances exist, whether the request is approved or disapproved. If the pharmacy benefit manager fails to respond within the respective timeframes, the request is deemed granted. If the request is disapproved, the notice of disapproval must contain an accurate and clear written explanation of the specific reasons for disapproving the Prior Authorization request or, if the request was incomplete, an accurate and clear written explanation that specifically identifies the missing material information that is necessary to approve or disapprove the Prior Authorization request.

Can the Drug List change?

The drug list may change from time to time as described in the plan document or other plan materials. Some reasons why they can change include:

- New drugs are approved.
- Existing drugs are removed from the market.
- Prescription drugs may become available over the counter (without a prescription). Over-the-counter drugs are not generally covered in a formulary.
- Brand-name drugs lose patent protection and generic versions become available. When this happens, the brand-name drug is likely to be covered at a higher cost. And the generic versions cost less.

Members are notified in advance of formulary changes when:

- A drug is removed from the formulary
- A drug tier changes
- Prior Authorization or Quantity limits are added to a drug

What if I need a drug that requires an exception?

In certain cases, you or your prescriber can request a medical exception to the prior authorization or quantity limits requirements. And also for a drug that's not covered in your plan.

We will then contact you or your prescriber with our decision. All medically necessary outpatient prescription drugs will be covered. If a medical exception is approved, you only need to pay the copay after the deductible. This amount is based on your pharmacy plan design.

Medical exceptions which are approved for non-urgent requests will cover the duration of the prescription, including refills. Approved medical exceptions for exigent circumstances will provide coverage for the duration of the exigency. If your request is denied you have the right to file an appeal using the process described in the notification letter.

For more information about your plan

Visit the website that's on your member ID card. Then log in to your account, where you can:

- Find out the coverage and estimate of cost for specific drugs
- View your deductibles and plan limits
- Order medications
- Check your pharmacy order status
- Get a member ID card
- View your claims, Explanation of Benefits and more

Have more questions about your pharmacy benefits?

We're here to help. There are several ways you can learn more about your benefits:

- Check your Plan Design and Benefits Summary in your enrollment kit
- Call the toll-free number on your member ID card.
- Review our pharmacy frequently asked questions (FAQs) and answers. Just visit the website that's on your member ID card to search for the "Pharmacy FAQ".
