Why Trustmark's Accident insurance?

Employees need Accident insurance

Accident insurance helps fill gaps in health insurance for costs such as deductibles and copays. Employees may need this protection because accidents happen every day and many employees are not financially prepared...

Nearly six in 10 Americans don't have enough savings to cover a \$500 unplanned expense.¹

Despite having year-round insurance coverage, 10 million insured Americans ages 19 to 64 will face medical bills they are unable to pay.²

Trustmark's new plans provide personalized protection

There are a variety of services which can be covered by Accident insurance, but Trustmark's plans are designed around the ones that matter most...

- Delivers the highest available benefit for the 10 most utilized benefits and three most visible hospital services.
- These key components account for 97 percent of Trustmark's Accident claims.
- Coverage for health screenings can be built into plans to promote well-being and health education.³
- Guaranteed issue plans with level premiums are available and can make protection accessible.
- Full portability means employees can keep their coverage even when changing jobs.

Just 13 benefits and services account for 97% of Trustmark's Accident claims. This data drove the design for plans that give superior protection where it's most needed.
